Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE ____ MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. The examiner acknowledges the amendment filed 9/7/04.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1,14-21, 22,35-42, 43, 57-64 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Pat. No. 6,216,231, hereinafter '231.

As per claims 1,14-21, 22,35-42, 43, 57-64, '231 teaches a protocols and policy for specifying constraints in a distributed system, having: a refreshing credentials entity, a memory, a profile collection, related information, examining a refresh policy, replacing a credentials, updating the profile, and repeating the actions, storing a credential identifier, when credential issued, recent use/ status, older time/expired, recency requirements, and use for subsequent sessions. See abs., fig. 2a-3e, 4a-45, summary, col. 7, lines 35 et seq., col. 8, col. 9, lines 42 et seq., and col. 10, lines 1 et seq., col. 11, lines 30 et seq.

Allowable Subject Matter

3. Claims 2-13, 23-34, 44-56 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

4. Applicant's arguments filed 9/9/04 have been fully considered but they are not persuasive. Applicant remarks that his invention utilizes a proactive refresh that alleviates the burdens on the system during heavy use, and are beneficial during idle time. These features are not elements of the claimed invention, and are therefore moot. The purported benefit of refreshing the credentials in a proactive manner that avoids unnecessary computational burdens on the system has not been claimed.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
